

CARE CO-PILOT

ELEVATING THE STANDARD OF CARE

We have partnered with Sensi to provide a 360-degree understanding of seniors' physical, emotional, and cognitive needs. With Sensi's HIPAA-compliant technology, your residents/patients can experience holistic, proactive care with data-backed intelligence.

Early Detection => Proactive Care

- Always-on virtual care assessment via audio technology
- Timely intervention with holistic care intelligence
- Personalized care plans matched with caregiver expertise

This audio awareness system powered by Sensi.AI can detect care-related anomalies, revolutionizing how agencies and caregivers proactively plan and provide better care."

Teepa Snow, Dementia Care Specialist

Reduced Hospitalizations

Sensi provides data-backed insights so your residents/patients can experience proactive care.

Personalized Care

Sensi matches patients/residents with best caregiver to offer exceptional care.

Enhanced Senior Well-being

Sensi provides a 360-degree understanding of residents'/patients' physical, emotional, and cognitive needs.
